

Based in Tokyo's central Shinjuku Ward, Mobikyo KK publishes the Wireless Watch Japan website, organizes MobileMonday Tokyo networking events, operates Mobile Intelligence Japan guided missions and offers related research and consulting services. Our core business is the production and dissemination of media content, market intelligence and business information targeted at helping foreign and domestic companies engage in the mobile market.

Since launch in 2001, Wireless Watch Japan has become one of the most popular and trusted voices dedicated to covering Japan's mobile industry, in English, for an international audience. With fantastic support from our clients, partners and affiliates in Japan and overseas, WWJ has become a leading source of independent intelligence based in the world's most advanced mobile market.

MobileMonday (MoMo) is a global community of mobile industry visionaries, developers and influential individuals fostering cooperation and cross-border business development through f2f networking events to share ideas, best practices and trends from global markets. MoMo chapters are active in 70 cities world-wide, and new locations continue to launch monthly.

MoMo Tokyo is Japan's leading community supporting the mobile industry and is a focal gathering point for business and product managers, entrepreneurs, application developers, analysts and the media. MobileMonday provides an open platform for mobile professionals to share ideas, best practices and trends from global markets to foster cooperation, partnership between companies and individuals and cross-border business development via the worldwide network of MobileMonday chapter cities.

Mobile Intelligence provides custom research and consulting designed specifically for industry executives working in sales, marketing, product development, business strategy, venture capital and the media. From private workshops and conference presentations to trend spotting innovations and independent analysis, our services are based on the direct experience and lessons learned in the Japanese mobile market. We also offer a unique in-Japan guided tour service providing market introductions, personal connections and actionable lessons for clients overseas.
